Frontend Implementation Summary

Phase 1 — Auth Flow Updates

- **Registration** now has a role selection (Advertiser / Ad Manager) with styled radio cards
- **Post-login redirect** is role-aware:
 - Advertisers → Advertiser dashboard
 - Ad Managers → Ad Manager dashboard
 - Admins → Admin panel
- **Post-email-verification redirect** routes to the correct profile creation page based on role
- **Change Password** screen added at </adverse-auth/change-password/>, linked from Settings in all three roles

Phase 2 — Ad Manager Screens

URL	Screen
admanager/dashboard/	Stats cards + quick links (filled in)
admanager/settings/	Profile edit + Change Password link (filled in)

URL	Screen
admanager/billboards/	Billboard table with availability status badges
admanager/billboards/add/	Add billboard form
admanager/billboards/<pk>/edit/	Edit billboard (reuses same form template)
admanager/campaign-requests/	Pending campaign requests list
admanager/campaign-requests/<pk>/	Campaign detail with Approve / Reject + reason field

Phase 3 — Advertiser Screens

URL	Screen
advertiser/profile/	One-time profile creation (shown after email verification)
advertiser/dashboard/	Stats + recent media + quick action cards
advertiser/billboards/	Browse available billboards with screen type / price filters
advertiser/media/	Media library with status badges (Pending / Admin Approved / Fully Approved / Rejected)
advertiser/media/upload/	File upload form with media type toggle (hides duration field for images)
advertiser/campaigns/	Campaign list with status badges
advertiser/campaigns/create/	Campaign creation: select media, billboards, schedule, budget
advertiser/campaigns/<pk>/	Campaign detail with Submit / Cancel actions and rejection reason display
advertiser/settings/	Profile edit + Change Password link

Phase 4 — Admin Panel Screens

URL	Screen
admin-panel/	Overview with pending counts (Advertisers / Media / Campaigns)
admin-panel/advertisers/	All advertisers table with Verify / Suspend inline actions
admin-panel/media/	Pending media list with Approve / Reject + reason field
admin-panel/campaigns/	Pending campaigns list
admin-panel/campaigns/<pk>/	Full campaign detail with Forward to Manager / Reject actions

Design System (all screens)

Token	Value
Background	bg-black
Sidebar / Cards	bg-zinc-950 / bg-zinc-900
Borders	border-zinc-800
Primary action	bg-red-600 hover:bg-red-700
Active nav link	text-white bg-zinc-800
Pending badge	bg-yellow-900/30 text-yellow-400
Approved badge	bg-green-900/30 text-green-400
Rejected badge	bg-red-900/30 text-red-400
Active badge	bg-blue-900/30 text-blue-400
Font	Inter (Google Fonts) + Tailwind CDN

New Files Created

Python

- `advertiser/decorators.py` — `@advertiser_required`
- `advertiser/forms.py` — `AdvertiserProfileForm`, `MediaUploadForm`, `CampaignForm`
- `advertiser/views.py` — all template views
- `advertiser/urls.py`
- `admanager/forms.py` — added `BillboardForm`
- `admin_panel/` — full Django app (views, urls, decorators)

Templates

- `templates/security/change_password.html`
- `templates/adManager/base.html`, `dashboard.html`, `settings.html`, `billboard_list.html`, `billboard_form.html`, `campaign_requests.html`, `campaign_request_detail.html`
- `templates/advertiser/base.html`, `profile.html`, `dashboard.html`, `billboard_browse.html`, `media_list.html`, `media_upload.html`, `campaign_list.html`, `campaign_create.html`, `campaign_detail.html`, `settings.html`
- `templates/admin_panel/base.html`, `dashboard.html`, `advertisers.html`, `media.html`, `campaigns.html`, `campaign_detail.html`

Modified

- `security/views.py` — role-based redirects, change password view
- `security/urls.py` — change-password route
- `templates/security/register.html` — role selection UI
- `admanager/views.py` — billboard + campaign request views
- `admanager/urls.py` — new routes
- `adverseproject/urls.py` — include advertiser + admin_panel URLs
- `adverseproject/settings.py` — added `admin_panel` to `INSTALLED_APPS`
